Recommendation for Alexandra Davidsson

It is with much enthusiasm that we write this letter both to express appreciation for the brilliant and engaged voluntary work of Alexandra Davidsson as a student conference committee member during our Master Course Thematic Issues within the Master Program in Global Studies, University of Gothenburg.

One of Alexandra Davidsson's many strengths is her ability to coordinate and organize in a smooth effective and creative manner as well as her capacity to both lead and democratically work in a (conference committee) group and act as an operational moderator. These qualities will serve Alexandra Davidsson well in any future organization of conferences, workshops or seminars. We warmly endorse her application for future internship/work. We think she will both benefit and make a contribution to the institution receiving her.

Gothenburg 23th January, 2013
